MEMORANDUM FOR: [] Seminar Participants

25X1

I would like to thank you again for the time and effort you put into making this year's TSD R&D Seminar [] the success that it was. The discussions regarding the operational pertinence of the various aspects of the proposed TSD [] FY '68 Program were particularly candid and to the point. They will be of considerable value to me in arriving at a final form and content for the TSD [] FY '68 Program. While each of you certainly represented your present Division or Staff positions, you, more importantly, often spoke simply as experienced Clandestine Services operations officers with no specific parochial interest.

25X1

As I define for the TSD/ [] Program Managers the top priority [] efforts for FY '68 and the areas of marginal pertinence or minimal operational value to the CS as they were discussed at [] I will try to pass these on to you in abstracted form so that you can see some specific significance of our [] discussions.
